PLAN OF OPERATIONS

(For Operations Proposed Under the 43 CFR 3809 Regulations)

Instructions to Claimant/Operator: Circle "Notice" above if operations within the project area propose to disturb a total of five (5) acres or less during the calendar year. Circle "Plan of Operations" if the proposed disturbance will exceed five (5) acres during the calendar year or if your operations are proposed in an area listed in 3809.1-4(b). Complete the form in as much detail as possible. Use maps or sketches where appropriate (maps or sketches are required for submitted plans of operations and are recommended, but not required, for submitted notices). A review of 43 CFR 3809 Regulations should be conducted prior to completion of this form and submission to the appropriate BLM office.

Operator Information: (If different than claimant)

<u>Name</u>	<u>Mailing Address</u>	<u>Telephone</u>
Aggra-Insulite Marketing	8790 Blue Jay Lane Salt Lake City, UT 84121	942-0895

Claim Information: (If activities are proposed on BLM administered lands)

3. Information and data submitted and specifically identified by the operator as containing trade secrets or confidential or privileged commercial or financial information should be attached to a separate page and cited in the text of the notice or plan of operations. This information will be filed separately by the BLM and will not be available for public inspection.
4. Failure of an operator to file a notice under 3809.1-3 or a plan of operations under 3809.1-4 will subject the operator, at the discretion of the authorized officer, to being served a notice of non-compliance or enjoined from the continuation of such operations by a court order until such time as a plan or notice is filed with the authorized officer.

Access Routes (Existing and Proposed)

Along existing access road (see map).

Existing Disturbance and Structures

+ 1 acre quarry where mining and crushing activity is taking place.

Proposed Operations

Continuing crushing uncommon, altered Joe Lott Tuff. Onsite there is crusher & screens, large light plant, air track drill, frontend loader, bulldozer, and conveyor. Coarse rock made by blasting is crushed & sized. A market exists for all size ranges, so that no large amounts of tails are anticipated. Should this change, we will submit disposal plan.

Proposed Completion Date

Ongoing on annual basis.

Proposed Reclamation: Describe the proposed reclamation procedures and other measures to be taken to prevent unnecessary or undue degradation of the lands, including measures to be taken if a period of non-operation is anticipated.

Mining activity will follow the natural slope of the hill. There is no soil to remove. We will not develop any high walls and will maintain safe slopes and seed where possible if it is practical. Bedrock is exposed at the surface. The ground cover is weathered Joe Lott Tuff and younger lake sediment.

I hereby declare that I, or persons I have authorized to do so, will complete all necessary reclamation of areas disturbed during the course of my operations to the standards described in 43 CFR 3809.1-3(d) and that reasonable measures will be taken to prevent unnecessary or undue degradation of the federal lands during operations.

Notice to Claimants/Operators:

1. A notice submitted in relation to the 43 CFR 3809 regulations does not require approval from the BLM. However, notification of such activities shall be made at least 15 days before commencing operations. Approval of a submitted plan of operations is required from the BLM prior to commencing operations. The BLM will promptly acknowledge receipt of a plan and will notify the claimant/operator of the status of the plan within 30 days of receipt.
2. Approval of a plan of operations does not constitute certification of ownership to any person named as claimant/operator herein, nor does approval constitute recognition of the validity of any mining claims named herein.
